

# Beautiful

Hendersin

I'm trying to spend some time with you  
And I'm paying attention  
You got a smile that will make Edison second-guess his invention  
Going through the challenges the day got  
Woes wanna rope me in  
I'm afraid not  
'Cause you help me just ease that tension

You should change your name to "Laughter"  
You bring joy to every room  
Other voices vanish after  
Hearing such a lovely tune

In a world that's so imperfect  
Every word you say is music  
You should change your name to "Beautiful"

There's no I without you  
So every time that they mention me  
I talk about your empathy  
I feel like you was sent for me

The way you keep it 100  
Kind of like a century  
What's money without love?  
OK. It makes sense to me

This little light of mine  
I'm 'a let it shine  
But that light of yours  
I swear it cures  
So, don't never let them dim your fire  
Your karma must be wonderful  
Your aura I admire

You should change your name to "Laughter"  
You bring joy to every room  
Other voices vanish after  
Hearing such a lovely tune

In a world that's so imperfect  
I know you will try to fix it  
You should change your name to "Beautiful", "Beautiful", "Beautiful"

I don't think you'd mind it if I changed your name to something new  
Would you think
