

# Better Off

Hendersin

And so the questions that you've chose to ask  
"Will it be better where we're going?"  
And though the answer I don't know, for a fact  
Still my heart is saying, "Ohh-Yeah"

Still just taking it, one day at a time  
Still don't know what I'm trying to find  
Really I don't mind cause I'll be fine, yeah I'll be fine, Yeah  
No longer focused on yesterday  
And I don't care, the rest will say, whatever they want  
What's left to say, what's left to say?

Cause I'm lea-ving  
All the pain  
That they bea-ming  
What I'm trying to say, belie-ving  
I can find a way, aye  
And I'm drea-ming  
No need to show me how the rea-son  
You can't slow me down, sei-zing, the moment only now  
So we gon'be

Da-da-da-da-better-off, we'll be better off  
Da-da-da-da-better-off, we'll be better off  
Bum-bum-bum-bum-buh-dum

Still not sure about what I'll be  
Still can't believe everything I see  
If I'm gonna stay down, well it's up to me, it's up to me, yeah  
Living in a world overcome with greed  
Now when I walk out everything I need [?not what I want but everything I nee  
d??]  
I'm working hard till the day I succeed the day I succeed

Cause I'm lea-ving  
All the pain  
That they bea-ming  
What I'm trying to say, belie-ving  
I can find a way, aye  
And I'm drea-ming  
No need to show me how the rea-son  
You can't slow me down, sei-zing, the moment only now  
So we gon'be

Da-da-da-da-better-off, we'll be better off  
Da-da-da-da-better-off, we'll be better off  
Bum-bum-bum-bum-buh-dum

Yeah the junior always wanna be the senior  
I swear that the grass looks greener  
Want to change your demeanor, looking like John Cena  
A girl that is fast with an ass that looks like Trina  
Do exactly what you need to do  
But you can't have your cake and eat it too  
And I swear the very second we complain  
Is when the thing that we work for, is the thing we obtain, yeah  
-And I don't understand why

You always wanna change the past  
It's not having what you want  
It's wanting what you have  
I might not pop bottles in the night club  
Or blow up the same way like Mike Stud  
When life hits me in the face like a right snub  
If you were late it's alright cause

Yeaah  
We'll be better off  
In the end  
Trust me  
When it's all said and done  
We'll be okay
