

## December Freestyle

Hendersin

Yeah

Team, team, team, team Hendy

I was dope from the rip, yeah I just took the whole page  
Think about my past, I look forward to old age  
Mad about the drive, I ain't talk about road rage  
The man they couldn't break, yeah, I swear that the floor cage  
Yeah, I'm talking about Luke if you ain't get the reference  
Rappers, that's a fluke if I had a preference  
You be outtie, I promise you'll never [?]  
You ain't a don like Cheto, that's word to Danny DeVito, 'cause

Well, well I'm just being frank  
I'm tryna get what I deserve, I'm just being tank  
And they wanna spend time but then I withdraw  
And I leave them alone, I suggest be a bank  
I wish 'em well, Fargo  
If I was on the track, I carried cargo  
I own what I write, rights on the RO  
And they say that life a journey but I guess we gon' see where my car go

Vroom vroom, I kill it every single time  
So it's too soon, I see you blew it but not only in a blue moon  
And I gotta lay low  
And I know that they know, ay yo, boom boom  
I take it back to the nineties  
I don't know you, 'kay? 'Cause what you say is grimey  
But I'm okay, you can never mind me  
'Cause you know I spit that magic and that's word to Hermione

Never did it for the fame, never did it for the glory  
Man I switched lanes like Tory  
Seeing my friends grow up is so beautiful  
So once again I gotta say congratulations Kate and Cory  
Yeah, we growing up  
And don't you ever worry 'bout me blowing up  
And all the fame and all the money should be throwing up  
Because it's really, really vital  
That my kids have a recital, I could be there, showing up  
That just means more to me, I'm just talking priority  
Music keep my authority, someone call the authorities  
'Cause I just plan on making off something like a bandit  
Two hundred singles plus they created single handed  
Guess it's simple and plain, now I don't plan to land it  
Here to spread love the way that I brand it  
Ws, there's more to come  
Add 'em up, it means more to some, yeah

I was bred in this game but they don't ever toast  
The tracks are still swaggy but they don't ever post  
Outwore my welcome, couldn't think of a better host  
Feels like I'm forever close, but it's all good  
I am so grateful  
Team, team, team, team Henny, thank you
