

You said, "You know what I find so interesting?"
What's that?
You always on the move. You ain't into resting
What's that?
So, like the algorithm. Well, I been suggesting
We need to chill, chill, chill

Let's be real. I have loved you since 19
Back when the flow-uh-just was a pipe dream
They tried to box us in a corner just like a fight scene
After every single thing that I've seen

I love that we go way back. Retro
I love it when you gas me, Petro
I told you I would never let go
And now I'm here again like echo

I love that we go way back. Retro
I love it when you gas me, Petro
You told my you would never let go
And now you're here again like echo

Cruising
Who's in?
I know you are
Not Fiona. Don't go too far
Away
OK
Life's not noir
No, no

'Cause life ain't black, life ain't white
We'll be wrong, if they right
Level up, check the height
We're gon' cruise, Dynamite

P.D.A.. That's on sight
I'm 'a give you what you like
That's an urge. We can't fight
That's an urge. We can't

I love that we go way back. Retro
I love it when you gas me, Petro
I told you I would never let go
And now I'm here again like echo

I love that we go way back. Retro
I love it when you gas me, Petro
You told my you would never let go
And now you're here again like echo
