

Everything

Hendersin

I'm not sure what I wouldn't do
To get my hands all over you
I just push and shove but

For you I will get up and go, oh lay
Needed something like this, I'm talking like Coldplay
Heated, they cannot stop us, no way Jose
Now the hour jacked hour, I give you the whole day
'Cause time with you is something I'm tryna spend
No set period, I'm wishing it never ends
Got my heart on my sleeve, I'm sorry, I can't pretend
Just march to a club, I'm loving the way we went, 'cause

I'm not sure what I wouldn't do
To get my hands all over you
I just push and shove but
I go through almost everything, my love
I'm not sure what I wouldn't do
To get my hands all over you
I just push and shove but
I go through almost everything, my love

I go through almost everything, my love
I go through almost everything, my love

And every time that I'm with you, that's just a level-up
We can raise hell, you know, ring the devil up
Love, I fell in, I'm a tumbler, a metal cup
I owe you the world, you tryna settle up
You gon' take the cash app or the kisses
Would've missed out if I woulda left you a mistress
Don't take for granted, I'm just tryna grant you wishes
I'm tryna do more than the dishes

I'm not sure what I wouldn't do
To get my hands all over you
I just push and shove but
I go through almost everything, my love
I'm not sure what I wouldn't do
To get my hands all over you
I just push and shove but
I go through almost everything, my love

I go through almost everything, my love
I go through almost everything, my love

Bad lip stick with your shade of eyes
Every time we touch, I have to smile
Every time I go, there's a part of you in me
Everywhere that I look, yeah, it's only you I see
Only you I see, yeah

I'm not sure what I wouldn't do
To get my hands all over you
I just push and shove but
I go through almost everything, my love
I'm not sure what I wouldn't do

To get my hands all over you
I just push and shove but
I go through almost everything, my love

I go through almost everything, my love
I go through almost everything, my love
