

# Just Like Magic

Hendersin

We're all dancing in the dark  
Broken pieces, open hearts  
Finding out just who we are  
Painting over every scar  
Turning tragic into art  
Feels like magic  
Just like magic

Really I'm just tryna be a better me  
And I'm just tryna make it last like the letter Z  
And whether time or money, this thing is never free  
Tryna make your vision come true, y'all never see  
But it's okay, you can go and turn a blind eye  
I ain't Fetty Wap, promise I'ma find my way  
Destiny calling, pick up the phone  
And my back against the wall, I ain't worried 'cause I've grown

I've been standing taller, my hate is getting smaller  
I fight for who I love yes, I've always been a brawler  
With stars I am a writer, my circle's getting tighter  
Use hope as the igniter, and fear, it is a lighter

We're all dancing in the dark  
Broken pieces, open hearts  
Finding out just who we are  
Painting over every scar  
Turning tragic into art  
Feels like magic  
Just like magic

We making triumphs out of tragedies  
That's like making life outta casualties  
That's like non-existent into actuallies  
A drive they couldn't match so pass the keys  
And I told 'em don't speak, got around the doubt  
Lost in translation, I found it out  
The writing's on the wall, had to sound it out  
Until I'm in a flow state like I found the spell

I just keep on going, until the sun is showing  
They say the grass is greener, first you should just try mowing  
In the end, well I'll bet that you'll find  
You are where you need to be, not behind  
When it was time to do something drastic  
You ain't make excuses, you just made magic

We're all dancing in the dark  
Broken pieces, open hearts  
Finding out just who we are  
Painting over every scar  
Turning tragic into art  
Feels like magic  
Just like magic
