

# Light It Up

Hendersin

Making noise, Hendersin the Announcer  
Stay round bars, all I'm missing is a bouncer  
Ain't fucking with the camp, my position is a counselor  
They say that life a bitch, but don't you dare denounce her  
Sharp like a muthafucking dagger  
And I walk through like fuck your swagger  
Just gotta say, wasn't always this way  
But you know sometimes we all fall, Niagara  
It's really if you gonna get up, Viagra  
Y'all don't get the picture, maybe I should tag ya  
Maybe I should make that shit a little more clearer  
Cause it's time for reflection, I don't need a mirror  
But I knew that my drive, it would take me far  
Now my rate of interest going up, APR  
Yeah, they blowing hot air like a dryer  
I'm a set it off and then set it on fire

We can light it up up up  
So they can't put it out out out [5x]

We gonna let it burn burn burn burn burn burn [9x]

I keep moving, you're about the starlit  
Been through more bars than an alcoholic  
Hope your bluff picking up cause I'm about to call it  
I got the game in my back pocket like a wallet  
All it takes is a really big break  
And I guess that it's apparent I'm about to raise the stakes  
Used to Medusa, I ain't fucking with you snakes  
I fight for my career but I'll never hit the brakes  
I'm the answer if you wanna ask me  
I'm a smart guy but you never gonna pass me  
Been spitting real since Drake was on Degraassi  
Ain't that shit about a bitch, Lassie  
Knew that my drive, it would take me far  
Now my rate of interest going up, APR  
Yeah  
You're blowing hot air like a dryer  
I'm a set it off and then set it on fire

I know they gonna hate (hate)  
They just trying to bring me down (down)  
But I don't give a fuck (fuck)  
You should probably king me now (now)  
Yeah I'm moving forward (forward)  
Y'all should fall back (back)  
If this ain't dedication (-cation)  
Tell me what you call that

W-w-working every night  
So everything I write takes flight  
Kinda like a kite  
I'm like Mike on a mic  
But I might fight for the right  
With the might of a knight  
In the sight of the light, alright? (Alright)

Yeah you try to take our shine, Bad Boy, '99  
Tell'em that we doing just fine, it's our time
