

## run it

Hendersin

On the up run it back we gon pick up the pace  
Couple stacks for a 16 pick up the rate  
On a jet like Kenny, vodka sprite no henny  
We be cruisin' and we running up the block like Jenny

Imma take that never kick back with the flame  
With a little bit of disrespect, little bit of rage  
Say I never chill out, but I don't wanna chill out  
Rather die trying rather get all my shit out

Big time in the big leagues, big crib and a Bentley  
Big dreams like a venti, keep it hundred percent me  
So Imma need a little room yeah I need a little space  
Yeah I need a little me time need a little grace  
Imma hit it in the meantime, this is what it feels like  
Stuntin' with a drip like this, it's a real vibe

Big time in the big leagues  
Big stacks low cash don't move me  
Quick pace no breaks keep it lowkey  
Everybody don't run it like we do

Big time in the big leagues  
Big stacks low cash don't move me  
Quick pace no breaks keep it lowkey  
Everybody don't run it like we do

I wake up a little bright-eyed meeting with a white guy  
Swear that they the ones with the cash  
And you don't gotta be rude, respect my views  
Green everywhere hooks I smash  
Never get it twisted, all about my business  
Energy contagious so I speak from a distance  
Pull up in the kick back, fit like what is this  
I like to be the big shot maybe just a little bit  
How I flow like this it's an art  
Got a drip like a flood Noah's Ark  
And see my brother said we blowin' in a couple years  
I guess I believe him said it came from the heart  
And yo I really don't sleep cuz the money don't rest  
Really I been buzzin' like the honey still fresh  
Ball on the haters leave the whole game pressed  
Pull up in your face jump shot still wet

Big time in the big leagues  
Big stacks low cash don't move me  
Quick pace no breaks keep it lowkey  
Everybody don't run it like we do

Big time in the big leagues  
Big stacks low cash don't move me  
Quick pace no breaks keep it lowkey  
Everybody don't run it like we do

I put the BS behind me like a book bag  
I feel great so how could I look back  
And I don't know where Imma land

Imma stick to the plan  
With them comments off hand like a hook hat  
And you know I give them lines like it's drop day  
And when I think about your song the word is not play  
I'm just a college dropout who was late for registration  
And my girls graduation but I'm not Ye  
I'm dedicated and I'm focused on my artistry  
Kick drum still beating like the heart of me  
Music in my DNA I swear that it's a part of me  
Ice in my veins mess around and clog an artery  
And I'm taking out the comp like it's coat time  
Generated mid six figures from my own mind  
And like Carol the fame I ain't basking  
Hendersin the answer no matter who's askin'

Big time in the big leagues  
Big stacks low cash don't move me  
Quick pace no breaks keep it lowkey  
Everybody don't run it like we do
