

Stronger

Hendersin

Stop, breathe
Wait a little longer, we be getting stronger
Stop, breathe for me

Here to shake it up, you people you never shook me
And I got the hunger an drive just like a rookie
And I take action just like a bookie
Y'all don't last, no class, just playing hookie
Trapped in a world, well yes, they quit the judge
Holding on to hope and letting go with a grudge
'Cause if I make it out I hope it's not with a scratch
Eggs in a basket waiting for them to hatch, like

From when I was 16 I wanted all that I had
Tell me when did it change or where'd we go
Now in the mirror I see someone I don't wanna be
Tell me, could we turn back? Oh please don't go

Stop, breathe
Wait a little longer, we be getting stronger
Stop, breathe for me
Stop, breathe
Wait a little longer, we be getting stronger
Stop, breathe for me

When will I be satisfied, what I meant
When will I look at life, be content
And be accountable for time that I spent
'Cause every single second's like every single cent [?]
Feeling like [?] like there's no air
Like pike on a mic if you think I don't care
Go where the wind blows, yeah I hope I get breezy
I'm hoping that the next time you see me, I said

I don't need more time, I know where the heart is
Tell me what you need, just don't let go
We're taking all that's left to build it up again
It's gonna be a chance, but here we go, go

Stop, breathe
Wait a little longer, we be getting stronger
Stop, breathe for me
Stop, breathe
Wait a little longer, we be getting stronger
Stop, breathe for me
