

The One

Hendersin

I'm workin' hard like I needed the stress
And you know I'm still at it like an email address (Ooh)
TeamHenny, that's the hive, like a bee with a nest
I'm a standup guy, never needed a test
They S-A-T the less they see
The more I do, that's real talk, F-A-B (Ooh)
Tryna advance my placement the quest they P
Not here to follow trends, no F-A-D

You can take all the sun away
Just because
Burn this page of the past away
You can't take the one
The one that I love

I do it for the rich and the poor folks
For the ones who laugh, they always have more jokes (Ooh)
If I could make a hit song with four notes
Can I have compassion for the ones that gave Donald Trump his core votes?
We all human at the end of the day
If you don't have healthcare, they just send you away (Ooh)
Stop pretendin' to say "Education is key"
I wish it was free, 'cause honestly depends if you patience
I'm speakin' 'cause the beat was speakin' to me
Don't pay me no mind like I'm speakin' for free (Ooh)
Look for the vision, keep seekin' the sea
Uncharted waters like you just sick in the sea

Use my, use my talents for good (Ooh)
And speak for, for the misunderstood (Ooh, yeah)
And do the, do the things that I should
And do the things they said that I never could

You can take all the sun away
Just because
Burn this page of the past away
You can't take the one
The one that I love

In broken mirrors, I've seen
I've seen a face that looks nothing like me
Ooh, you can change the light
You can turn it all to black
But you can't change the memories

You can take all the sun away
Just because
Burn this page of the past away
You can't take the one
The one that I love
