

To The Sky

Hendersin

Yeah, this one of them songs (Hallelujah)
That make em feel good
Yeah

Lookin' in the mirror like, What you gon' do?
The only one stopping you right now is you
Yeah I promise I'm gonna fight, working every single night
'Cause it's not where you're from but where you're going to
A natural part of life, yeah, I know that things change
Been trying to manage green like my name is Danny Ainge
Paid all the haters no mind, they must know Tech Nine
'Cause now the new music sound strange
Big city dreams but a small town kid
I had to take a chance, had to do what I did
Yes, I had to fucking try, I don't even know why
But I really had faith that I'm gonna do it big
Now Team Henny, yeah, I promise that's the crew
Been tryin' to change the world, hope the message get through
Yes, you've been down from the start, so I love you with my heart
So, if it's the last thing you do

Just put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go

Put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go

Oh yeah (Oh yeah)
Oh yeah (Oh yeah, and if you're tryin' to live a dream)
Oh yeah (Oh yeah)
Oh yeah (Living life wanna know what it mean)
Oh yeah (Oh yeah)
Oh yeah (Oh yeah, and if you're ridin' with the team)
Oh yeah (Oh yeah)

It all started with a vision, now I hope they all see
That money buys things, but love is all free
I went and put Mass on my back, Westside to be exact
Now I'm up like I'm drinking coffee
I had to feel lost just, so I could find my purpose
Memories are priceless, and prices are worthless
Realize every single one on this Earth is
Rich when you have something that they can't purchase
Speaking for the people who ain't even got a voice
I know it feels sometimes you ain't got a choice
And now you feel stressed, but realize you're really blessed
And this is just a test and you can rejoice
Yes, Team Henny, yeah, I promise that's the crew
Been tryin' to change the world, hope the message get through
Yes, you've been down from the start, so I love you with my heart
So, if it's the last thing you do

Just put your hands up to the sky

Promise you won't let me go
We don't die, we multiply
Going where they never go

Put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go

Oh yeah (Oh yeah)
Oh yeah (Oh yeah, they don't understand)
Oh yeah (Oh yeah)
Oh yeah (Oh yeah, cause they wanna make me land)
Oh yeah (Oh yeah)
Oh yeah (Oh yeah, but I still never ran)
Oh yeah (Oh yeah)
Oh yeah (Oh yeah)

Put your hands up
Promise you won't let me go
Put your hands up
Go where where they never go
Put your hands up
Promise you won't let me go
Put your hands up
Go where where they never go

Put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go

Put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go

Put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go

Put your hands up to the sky
Promise you won't let me go
We don't die, we multiply
Going where they never go
