

Turn Back Time

Hendersin

You rap for no reason, I just have to rhyme
[?] to grind
You thought I was joking like Zach I'm a mastermind
Keep playing games like your craft becomes after mine
Sorry I ain't got time to be warmhearted
I was a prodigy that's when it's quite a storm started
Knew I wanted to rap at the age of nine
And when you stop watching all it takes is time
And so I got into the game
Said that I'm not Katie White, make sure they gon' know my name
Make sure everything is great and I really can't complain
So they say I'm like the letter A because I'm insane
But I rather be crazy than fucking lazy
A house that is booming like Jay-Z's baby
I can't effort to spend time not unless you pay me
I work to be the greatest no if, as and maybes
Nah, yeah

I've made mistakes and I prolly gonna make more
I keep it moving like what you need a break for
I showed you the real me not a fake
So money can't buy happiness, uh let me make sure
'Cause Elon Musk seems happy as fuck
Bet he [?] dabbing 'em up
Meanwhile my [?] and they keep stacking up
Hits on my hard drive who's backing me up
But waht are you supposed to do
When the one [?] are the same ones who are close to you
When life been like a jungle, lately like an open zoo
And squandered opportunities that now you are open to
But I've come this far, no I can't back down
I wrestle with myself, they should prolly put a mack down
I do it till they feel me that's a path down
I'm searching for greatness like Matthew Carey
I hallow when I come background
Yeah
