

## Between Us

Henry Green

Now I hear the signals you sent  
Inner thought to outer movement  
Only a thread between us, drawing me in  
I'm in the pool beneath her  
Soaked to the skin

Now we're fading in  
And I feel again  
The warmth within  
Another day beginning to change  
We'll stay the same  
In our own fade

Now I feel your weight pushing in  
Coming through in waves, strong again  
Always a thread between us drawing me in  
We find strength in weakness  
In oscillating

Now we're fading in  
I feel again  
The warmth within  
Another day beginning to change  
But we'll stay the same  
In our own fade  
In our own fade

In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way  
In and out of shade  
Our love flows this way
