

Do You Know

Henry Green

We can love life like the city wounds
Push our fear up against the walls
We can find ourselves here
We can find ourselves here

Can we run like we used to?
Watch our heels rip apart the storm
Can we get lost out here?
Can we get lost out here?

Do you know?
Do you know?
Where to go?

I'm so tired of the pocket lies
Pulling the wool over both my eyes
Can we see where to go?
Can we see where to go?

I want to run like we used to run,
Watch our heels rip apart the storm
Can we get lost out here?
I want to get lost out here

Do you know?
Do you know?
Do you know?
Where to go?

Is this the place that you need?
Is this the place that you seek?
Is this the place that you need?
Is this the place that you seek?
