

Real

Henry Green

Oh, it's time
I've followed your lead back down
Back to the ground
The ground
And you [?]
These moments, these foreign sounds
I see it now, now

And let the light drift through me
I've been waiting, waiting
For moments like these
Stay, don't leave me
Because I feel real

And now the darkness turns to light
You feed the signals to my eyes
You bring me back down
Enjoy the catalyst you've picked
Right besides, drifting through my mind
You bring them back around

And let the light drift through me
I've been waiting, waiting
For moments like these
Stay, don't leave me
Because I feel real

And let the light drift through me
I've been waiting, waiting
For moments like these
Stay, don't leave me
Because I feel real

And I don't want to lose you
So keep me falling through
And I don't want to lose you
So keep me falling through
And I don't want to lose you
So keep me falling through

And let the light drift through me
I've been waiting, waiting
For moments like these
Stay, don't leave me
Because I feel real
