

Shift

Henry Green

I feel movements under my skin
When we collide
I feel it all when you let me in
Caught in descent
With you I'm falling
A sweet decline
You'll hear me call
When the motions ends

Steeper ground
Shifting sound
Falling, dissolving
I'm in deeper now
We're drifting down
Falling, dissolving with you

Passing figments
Visualizing
Read the sign
See it evolve
Now you let me in
Each signal sent
A deep heat rising
Lift me off the ground
Keep this distance
Keep me closer now

Steeper ground
Shifting sound
Falling, dissolving
I'm in deeper now
We're drifting down
Falling, dissolving with you
