

Slow it down
Take a breath and close your eyes
Hang on tight and don't look back
Underneath it all we're just the same you and I
So don't go telling me you're fine

I'll be the flowers that they place on your casket
I'll be the love that we knew would never last and
I'll be the moon when the last sun is setting
I'll be for you, I'll be for you

Say the words
You're leaving and you won't come back
At least I'm sure it can't get worse
Cuz when the last bit of hope
Has left you cold and alone
I'm just someone you used to know

I'll be the flowers that they place on your casket
I'll be the love that we knew would never last and
I'll be the moon when the last sun is setting
I'll be for you, I'll be for you

Drömmar om ljuset
På 10th avenue
Ensam i mörkret (Ensam i mörkret)
Det är min tur nu
Och här är jag viljen (Och här är jag viljen)
På 10th avenue
Ser genom fönstret (Ser genom fönstret)
Du är lycklig nu

I'll be the flowers that they place on your casket
I'll be the love that we knew would never last and
I'll be the moon when the last sun is setting
I'll be for you, I'll be for you

I'll be the flowers that they place on your casket
I'll be the love that we knew would never last and
I'll be the moon when the last sun is setting
I'll be for you, I'll be for you
