

You And Me

Her Space Holiday

You and me we like to talk about that summer night
You came over to my house and I sat there while you
Told me everything all of your ups and downs and in between and
I just thought to myself

How could so much good exist in such a tiny heart
Despite of all the pain she's in she never falls apart
And if she does it lasts the length of seven songs she
Dries her tears on her best friend's sleeves
And dances right along

In a dream you called me up and asked me quietly if
I would like to meet you for a drink but when I got there
You just looked at me as you spoke to yourself if you take me home tonight I know that we will kiss
And one of us will fall in love and it will be a mess
But if you want to take that chance then please just let me know
I slammed my glass down on the bar and said grab your coat lets go

So here we are we've come so far

And I just thought to myself and I just thought

How could so much good exist in such a tiny heart
Despite of all the pain she's in she never falls apart
And if she does it lasts the length of seven songs she
Dries her tears on her best friend's sleeves and dances right along
