

## Can't Hide Your Love

Herbie Hancock

No matter where you go, I'm right behind  
There ain't a secret place that I can't find  
If you look in your heart of hearts, you'll find me there  
I've been there from the start and I ain't goin' nowhere

You can't hide your love away from me  
It's your destiny, don't you see  
You can't hide your love away from me  
You're a part of me, gotta be

You say you're on the run, well so am I  
You're not the only one who's ever tried  
If your heart leads the way, there's no reason to pretend  
I got my mind made up, I'll get you in the end

You can't hide your love away from me  
It's your destiny, don't you see  
You can't hide your love away from me  
You're a part of me, gotta be

Baby when you're close to me  
I am lost in my fantasy  
Oh my love, when you touch me, burn me  
I feel the fire...I feel the fire

You can't hide your love away from me  
It's your destiny, don't you see  
You can't hide your love away from me  
You're a part of me, gotta be
