

# Gettin' to the Good Part

Herbie Hancock

## VERSE 1

We're at the ending of another day  
No more working hours  
Inhibitions start to slip away  
Feel those moonlight powers  
We'll find a nice place to dine  
Get out the candlelight  
A little music and wine  
We're gonna do just fine

## CHORUS

Got to ease into the dance  
And give love's groove a chance  
'Cause in a moment all the magic's gonna start  
We're gettin' to the good part

## VERSE 2

It's time to really let your hair hang down  
Got to set your soul loose  
Just relax into the evening sound  
Feel the music take you  
There ain't no problems tonight  
Just put your trust in me  
We're gonna make it alright  
Oh baby can't you see

## BRIDGE

Tonite, there's a message written up in the stars  
It's time for us to open our hearts  
Reach out-got to let our feelings take us up high  
No doubt, we got the power to fly

## VERSE 3

So baby move your body close to mine  
Feel that warm sensation  
Let me take the worry from your mind  
Give in to temptation  
Forget the clock on the wall  
Let's turn the lights down low  
We're gonna have us a ball  
If we just take it slow
