

Don't Fail Me Darko

Here Comes the Kraken

I'm here now

They gave me a new mission
No hope that's forsure
It begins

I know it's wrong
I run away from the hospital
They come for me

Once again, confusing
Kind of fun
Awaiting the moment

What should we regret?
I don't care your fucking face
Distorted visions on dope
What should we regret?
I don't care your fucking face
Distorted visions on dope

Once again, confusing
Kind of fun
Awaiting the moment
What should we regret?
I don't care your fucking face
Distorted visions on dope (REPEAT)

Despite your bad taste
I will bite you forever
And tear your skin
Your pain is my pleasure
Despite your bad taste
I will bite you forever

Despite

Confusing

That's right
I know it's wrong but I couldn't stop this time
No regrets, they are not here anymore they cannot hurt me (REPEAT)

They, they gave me...
They gave me a new mission

They gave me a new mission
No hope that's forsure
It begins
I know it's wrong

I threw it away
They come for me

Once again, confusing
Kind of fun
Awaiting the moment

Once again, confusing

Cooooonnnfuuuusssiiinnnggg

Once again, confusing
