

Love You Like I Love Myself

Herman Brood

All my friends say I am a fool
I can't still stand that new boy hanging around
Every night honey you, you are not on the dance floor
I know he's back in town

And Margarita I want you so much, can't handle myself
Tried to find me another love
But that just turned out to be fooling myself
Cause honey, I want you

refrain:

I love you like I love myself and
I don't need nobody else
(2x)

Hey, I didn't see you hanging around in the après-ski
And I didn't see you down town
I know your rock and roll fantasy playboy kind of boyfriend
And I hate to see him back in back in town

Hey Margarita I want you so much, can't handle myself
Hey, I try so hard to find me another lover
But I just fool myself
Cause, I want you

refrain

Cause when you near, I can hear you
As long as you hanging around I don't feel down

refrain
