

When I Get Home

Herman Brood

When I get home
Im gonna sit on my bed
When I get home
The feed back in my head
When I get home
I wont answer the phone

But right now, right now, right now Im here on the road.

When I get home
Im gonna touch your hair
When I get home
Im gonna touch you there
When I get home
Ill be on top of you

But right now, right now, right now Im here on my own.

When I get home
I knew it aint no sceen
When I get home
You knew I take of my skin
When I get home
I dance around in my doors

But right now, right now, right now Im cruisin alone.

When I get home
Im gonna see my girls
When I get home
Im gonna buy them a toy
When I get home
There gonna jump with joy

But right now, right now, right now Im flying alone.
