

Let it Burn

Hermitude

World's gone mad
World's gone mad
World's gone mad
World's gone mad
World's gone mad
World's gone mad
World's gone mad

Pop it in my mouth
Acting kinda gitti
Hit them with the rhythm
I am in my element like I was a biggie
Wonder if I'll kick it
I keep telling them but they don't wanna listen
I keep telling them but they don't wanna listen
I keep telling them

World's gone mad (World's gone mad)
Mad
Ease up on the technicolor, give me, give me mission
Give 'em all I have
Give 'em all I have
Then you give it back, it's pretty freaking simple, man
World's gone mad, world's gone mad
Put your damn hands up if you wanna kiss it
World's gone mad, world's gone mad
Put your damn hands up if you living in it

Light it up, light it up
Let your light burn
Let your light burn
Aay, aay, light it up
Aay, aay, light it
Let your light burn
Let your light burn
Let it burn

Girl, [?]
Call up your mother and tell her how you live it
Hit 'em with the feeling
Take a walk in the park, hypnotism
Work what you giving (Work what you giving)
Chilling in my track pants watching television
They keep calling but I don't wanna listen
They keep calling me but I don't wanna listen
They keep calling me

Girl's gone mad (World's gone mad)
Throw your hands up if you burnt bridges
Girl's gone mad
Girl's gone mad
Put your hands up
World's gone mad
Give 'em up so they wake up
We need a shake up
World's gone mad
World's gone mad

Light it up, light it up
Let your light burn
Let your light burn
Light it up (Light it up), light it up (Light it)
Let your light burn (Aay, aay)
Let your light burn (Aay, aay)
Aay, aay, light it up
Aay, aay, light it
Let your light burn (Let your light burn)
Let your light burn (Let it burn)
Aay, aay, light it up
Aay, aay, light it
Let your light burn (Let your light burn)
Let your light burn (Let it burn)
Light it up (Let your light burn), light it up (Let your light burn)
