Hermitude

I feel the focus swell  
And what they do to me  
I feel the light above  
Nothing can set me free

I'm gonna do something about it for myself  
I need to make something of my life and go through hell  
Been high as I felt  
For myself

Spotlight  
Enough to find my own way back  
I chase the spotlight  
Enough to find my own way back

I feel the focus swell  
And what they do to me  
I feel the light above  
Nothing can set me free

I'm gonna do something about it for myself  
I need to make something of my life and go through hell  
Been high as I felt

And the better thing's now the blurred line  
In a better place now under the spotlight  
And the better thing's now the blurred line  
In a better place now under the spotlight

Spotlight  
Enough to find my own way back  
I chase the spotlight  
Enough to find my own way back  
Under your love, babe

Spotlight  
Enough to find my own way back  
I chase the spotlight  
Enough when I'm due to die  
Under your love

Journey, my life changed  
I'll never be the same  
I know what is the truth
