

## Too High

Hermitude

Sometimes I get a little too high  
Sometimes I get a little too high  
Sometimes I get a little too high  
Sometimes I get a little too

Sometimes I get a little too high  
Too high, if I'm the one to blame, one to blame  
One to blame, I know that it takes time  
I don't mind, only happened one time  
Two times I get a little too high  
Too high, if I'm the one to blame, one to blame  
I don't mind, only happened one time  
If you wanna blame, wanna blame  
Man, I don't mind

Sometimes I get a little too high  
Too high, if I'm the one to blame, one to blame  
One to blame, I know that it takes time  
I don't mind, only happened one time

Sometimes I get a little too high  
Sometimes I get a little too high  
Sometimes I get a little too high  
Get a little too high, man, I don't mind

It's only in your mind  
Just sit back, relax  
It's only in your mind  
So just sit back, relax  
It's gonna be alright  
It's only in your mind  
Just sit back, relax  
It's only in your mind  
So just sit back, relax  
It's gonna be alright

I get a, I get a little high  
I get a, I get a little high  
One, two times  
I get a, I get a, I get a little high  
I get a, I get a little, little too high
