

When You Feel Like This

Hermitude

Everything that you do I like
There's nothing left for us to find out
Now we've got each other ooh
And what we got we got it right
It took so long but know it feels like
I'm your everything you're mine

Every single day in every single way
Never let me forget I got your love
My heart is on display do with it what you may
Baby you and me I know that's enough

Lover lover we feel just the same
Lover lover you know it don't fade away
When you feel like this
Love forever ever and a day
Lover lover you know it can't fade away
When you feel like this
Nobody else could ever do
Learn better ways from watching you babe
Just a little give and take
And what we got we got it right
Nobody else is coming close
Now we've got each other ooh

Every single day in every single way
Never let me forget I got your love
My heart is on display do with it what you may
Baby you and me I know that's enough
I know that's enough

Every single day every every single way
Every single day every every single way
Every single day every every single way

Never let me forget I got your
Lover lover we feel just the same
Lover lover you know it don't fade away
When you feel like this
Love forever ever and a day
Lover lover you know it can't fade away
When you feel like this
Ooh ooh ooh ooh
When you feel like this
Ooh ooh ooh ooh
When you feel like this
Ooh ooh ooh ooh
Love forever ever and a day
Ooh ooh ooh ooh
When you feel like this
