

Dorothy

Her's

Come on outside
I got a place we can hide
Nobody knows
I just wanna feel all right

Start it again
I don't wanna have to depend
I'll say goodbye 'til you're back again
I'll say goodbye 'til you're back again

Oooh, oooh

How do I know
This road's the right way to go?
If she says right
I ain't gonna feel alright

How did it end?
I don't wanna have to pretend
I'll stay outside 'til you're back again
I'll stay outside 'til you're back again

Oooh, oooh

Don't say that you think that they know
