

## Gentle Anarchy

Hevein

Fuck what big government says should be  
Fuck media fear mongering  
Fuck propaganda and thought control  
Thoughts none but my own  
Who do I trust? Well, you tell me  
In this rat race of insanity  
Born to consume  
Playing a role  
Stuck in a lifelong swan song  
Now it is time  
To kiss your ass goodbye  
If they won't let the sheep be free  
Kill the shepherd for victory

Victory!  
Three cheers for anarchy, anarchy!

Hope and gentle anarchy  
Are things that keep me free  
Free from banality  
Disposable mediocrity and the drug TV  
Information censor free  
Just do it  
Do it eternally  
You're right to question authority

Don't be gentle with me  
Three cheers for anarchy, anarchy!  
If you can count to three,  
You'll love this anarchy , anarchy  
Put your hand on your heart  
Scream after me  
Gentle Anarchy!

Now i know how i ended up here,  
I took their piece of shit for real  
Now, I don't, care, about "##"  
Your time has expired

Anarchy  
Slaughter tyranny with Gentle Anarchy  
Gentle Anarchy!
