

# Invader

Hexx

Gonna shout...  
Gonna scream...  
Gonna cry out to all of the world  
Gonna soar...  
Fly with my wings all unfurled  
Gonna see...  
What no other man's ever seen  
I watch over everything

If a light above shines down on you  
There's not much you can do  
Invader...  
I am invader...

Come with me...  
I will show...  
You places seen never before  
Take a chance...  
You never know what lies in store  
Ride with me...  
Ecstasy, come on  
I will take you, there's no need to run

If a light above shines down on you  
There's not much you can do  
Invade... oh  
Invader... Invader... INVADER!!!

I will invade... Ya, I will invade...  
I will, I will, I will, I will invade...  
Oh... Tell me that you do, if you really want me to...  
And I will invade you... Oh I will, I will, I will... ya
