

Save A Life

Hey Mercedes

She wants to be seen with him
Like the greenest girl
He likes his medicine
Like the bluest boy
So what do you think went wrong
As the clouds would fall
Their lights were gone
I'd tell you some
But I know you don't wanna even know
She wanted to be his everything
Like the greenest girl
He wanted to sing a killing
Like the bluest boy
So what do you think went wrong
As the cloud would fall
Their light was gone
What do you think went wrong
As the tune of these two fools
Droned on
And you can save a life
If it calls out to you
You can save a life
If it falls before you
It's for you
You can save a life
Or is the terror tearing through you
Come on I dare you
