

# Without You

Hey Monday

I wanted you here beside me  
Cause this time you get so cold  
Everyone is smiling so brightly  
Can't pick myself off the floor

You walked out in November  
And I just let you go  
It was the biggest mistake  
Because

Bells are ringing, all I hear is your voice's  
'till singing, moving always, no choice  
So I made our drink just like we used to  
Christmas just isn't the same, without you

December makes me remember  
The way you rising up the snow  
You always promised forever  
But I guess, I'll never know

They say this, it's the most wonderful time in the year  
But I just wanna disappear  
And I think I'm losing my mind  
Because

Bells are ringing, all I hear is your voice's  
'till singing, moving always, no choice  
So I made our drink just like we used to  
Christmas just isn't the same, without you

So what am I gonna do (can't go on like this)  
Oh, (?) throughout the mistletoe (cause it reminds me of the ki  
ss)

Bells are ringing, all I hear is your voice's  
'till singing, moving always, no choice  
So I made our drink just like we used to  
Christmas just isn't the same, without you

Bells are ringing, all I hear is your voice's  
'till singing, moving always, no choice  
So I made our drink just like we used to  
Christmas just isn't the same, no,  
It isn't the same me  
Just isn't the same
