If It's Not

hey, nothing

Are you sure? Are you having a good time?
Threw a chair at the window just to see if it felt right
Is it fun? What does it look like?

If it's not alright, it will be in time
If it's not alright, it will be in time

The cold always comes at the worst time
I am a car, stuck at a red light

If things have their way of working out, why am I worried about
 it
I'll bury all my doubt deep enough so I know that you'll never
find it
(I don't even care if it's not)
If it's not the way I want it, then I must not be the one to de
cide it
(No, I don't even care)
If you convince me that I'm better then maybe one day I won't h
ave to hide it
(If it's not)

No, I don't even care if it's not
(If it's not)
(If it's not) Alright (Alright)
(If it's not) It will be (It will be)
In time

No, I don't even care if it's not
(If it's not)
(If it's not) Alright (alright)
(If it's not) It will be (It will be)
In time

No, I don't even care if it's not
(If it's not)
Alright
