Like Lovers Do

Hey Violet

I see you watching me, eyes on your target
Mix drinks and smoke rings, it's already started
It won't be too long before me and you
Are doing what lovers do

Clothes on the floor, we're exploring our bodies
Getting you off is my new favorite hobby
Lipstick on your neck brands like a tattoo
'Cause that just how lovers do

Ooh, love is just another four letter word
But that never stopped nobody
Ooh, either way we lose
Just like lovers, just like lovers do

His and hers closets are perfect for skeletons
Hiding resentment and shared infidelities
Cheers to regret, wash it down with some booze
Drinking like lovers do

Ooh, love is just another four letter word
But that never stopped nobody
Ooh, either way we lose
Just like lovers, just like lovers do

That's how it goes so take it like a grown-up
Life's not a fairytale, it's time to own up
Hire a hitman to take care of you
And end it like lovers do

Ooh, love is just another four letter word
But that never stopped nobody
Ooh, either way we lose
Just like lovers, just like lovers do

I see you watching me, eyes on your target
Mix drinks and smoke rings, it's already started
Let's roll the dice and we'll both make our moves
Playing like lovers do
