

## Don't Wait

Hezekiah Walker

Why you ridin' in your car  
Frontin' like a baller  
Makin' people think you all that  
When you know it's not like that  
But now the voice in your head gets thick  
And you never heard it sound like this  
Telling you to try to make haste  
Cause your soul's at stake better move don't wait

You need to make up your mind... Don't wait  
You seein' the signs... Don't wait  
Why you takin' your time... Don't wait  
Tomorrow's not promised... Don't wait  
You're already prayin' to God... Don't wait  
So why you makin' it hard... Don't wait  
Just take one step And let 'em in your life

People messin with your mailbox  
Got the whole world on lock lock  
You now seeing what you lack lack  
Because we're under attack (tack)  
Now you wanna get your life on track  
Don't let nobody hold you back  
All you gotta do is pray  
Tell 'em that you can't wait another day

Tell me how you're really gonna live  
Without the guidance and support that he gives  
But God is the ruler and still much in control
