

## We Made it

Hezekiah Walker

We made it, we survived  
When the enemy came in to threaten our lives  
God lifted a standard  
Devine protection  
No weapon formed  
Shall prosper against us  
I made it this far, by faith  
My future's brighter than my today  
I'm holding on to my praise, I made it  
I survived  
I'm a Survivor!! (3x)

Let's Stand in liberty  
Let's Walk in unity  
Let's Pray continually  
We made it  
We made it (3x)
