

Just Another Girlfriend

Hi-Five

Woo!

(All she ever was) was (just another girlfriend)
(All she ever was, baby)

Oh girl

Listen

I wanna know

The things that she's been saying 'bout me

And you

It's all lies, but she's got you to believin'

You and I are cheating

Took her out maybe or twice

Not too long ago

I told her then and I'll tell you now

She's just another girlfriend (just another girlfriend)

Oh, girl (I don't care)

Listen (what she says)

(All she ever was) was (just another girlfriend)

Girl (can't you see?)

Baby (the jealousy)

(All she ever was) was (just another girlfriend)

When I'm

Missing

She comes around

And drops a line or two about me

To you

It ain't right, but she's got you to believin'

I would mess around

Your friends are saying that I'm no good

You can never believe what I say

But if the truth is all that you want

You running with the wrong ones (running with the wrong ones)

Oh, girl (I don't care)

Listen (what she says)

(All she ever was) was (just another girlfriend)

Girl (can't you see?)

Baby (the jealousy)

(All she ever was) was (just another girlfriend)

You know that I

Like to have my fun

And you know that I wouldn't fool around

And if I did, she wouldn't be the one (around, around, baby)

Don't pay her no mind

When she's talking all of that trash

'Cause all she ever was a girlfriend from my past

And I don't care what she says

She barely knows her name

And if she drops mine again

She's got to be insane

All she ever
All she ever was, baby
All she ever
A-a-all she ever was
All she ever
All she ever was, baby
All she ever
A-a-all she ever was

Your friends are saying that I'm no good
You can never believe what I say
But if the real truth, baby, is what you want
You running with the wrong ones (running with the wrong ones)

Oh, girl (I don't care)
Listen (what she says)
(All she ever was) was (just another girlfriend)

Girl (can't you see?)
Baby (the jealousy)
(All she ever was) was (just another girlfriend)

Girl (I don't care)
Listen (what she says)
(All she ever was) was (just another girlfriend)

Girl (can't you see?)
Baby (the jealousy)
(All she ever was) was (just another girlfriend)

Girl (I don't care)
