

She Said

Hi-Five

I didn't know life could be so cold
My baby's gone away
And left me with a broken heart
I'm falling apart
Not a kiss goodbye
But still I remember

She said
I will be with you forever
She said
I'm in love with you
She said
No, baby, don't forget
That no one's gonna love you more than I do

I care for you
I'm crazy
All day long I just think of you
Think of your love, baby
All I need
I'll do whatever it takes
Just please forgive me

She said
I will be with you forever
She said
I'm in love with you
She said
No, baby, don't forget
That no one's gonna love you more than I do
