

This Love

Hi-Five

Oh, it's impossible
You could be so wonderful
This just can't be real
Sometimes I pinch myself
I can't believe my eyes
Like a rocket in the sky
You've been taking me so high
I've never been in here ever

I really don't think that it can get much better
Than this right here, girl
Than this right here, girl
It feels like I've been waiting for you for life
I don't wanna go another night
'Cause I just can't stand to be so far away from you, girl

This love, this love
It's the kind of love that was built to last
This love, this love
It's the kind of love that you don't take back, no
It's the kind of love that sets you free
It's the kind of love that's meant to be
You and me can show the world
Nothing can test this kind of love

It's so natural
We get so emotional
We get so far gone sometimes
I feel like we ain't never coming down
And nothing can stop us now
'Cause this love that we just found gets better
If we stay together

I really don't think that it can get much better
Than this right here, girl
Than this right here, girl
And I don't want another but you for life
And I don't want another but you tonight
'Cause I just can't stand to be so far away from you

This love, this love
It's the kind of love that was built to last
This love, this love
It's the kind of love that you don't take back, no
It's the kind of love that sets you free
It's the kind of love that's meant to be
You and me can show the world
Nothing can test this kind of love

Even if they try to tear us up (Oh no)
They could never knock us down, yeah
Love has us surrounded
Look me in my eyes
Reach out and take my hand
I can never get enough
I'ma hold on to this love

'Cause this love, this love
It's the kind of love that was built to last
This love, this love
It's the kind of love that you don't take back, no
It's the kind of love that sets you free
It's the kind of love that's meant to be
You and me can show the world
Nothing can test this kind of love
