Hi-Rez

(Oh my god! Is that Rez?)

Kick the fathers out the house
Send the mothers back to work
Let the school system parent your children right from the birth
Make 'em ill, feed 'em pills
Confuse 'em about what's real
Tell 'em facts don't really matter, it's all about how you feel
Science and math are racist
History, let's erase it
Indoctrinate a whole generation, you can't escape it
It's bigger than American politics, you're an accomplice
White people are racist, and bigots, and you're a colonist
If you want freedom, we'll encourage to do the opposite
It's toxic masculinity if a man is too confident
"Excuse me, what's a woman?"
"Well, I am not a biologist."
Common sense is really not common when you're a communist
Parents that care about they kids, let's call them terrorists
It's cool to be a feminist and an environmentalist
And if you love the country, that makes you a white supremacist
Don't even try defending it, 'cause what you say's irrelevant

Go and put your hands up, everybody stand up (Stand up)
The whole world goin' mad, bruh (Mad, bruh)
2 plus 2 equals 5
You a racist if you don't think that adds up

Don't have children
If you do, then abort 'em
If your neighbors don't comply with the government, then report 'em
If you have independent thoughts, then just ignore 'em
Communism's the way democracy is too borin'
Bring your kids to a drag show
Give them a couple dollars to put right up in 'they asshole
Don't worry 'bout the Epstein flight logs
The case is closed, so don't even go and ask, bro
Trust the WHO and CDC
None of our politicians work for the CCP
White kids are born racist, if you disagree
That makes you a damn racist, study CRT
In today's lesson, men can get pregnant
(Put your hands down, no more questions!)
Don't say pedophiles, just say A.L.A. (Huh?)
"Adults that Like Adolescents"

We want to drive the whole world crazy
Brainwash kids from the time they're babies
We want you dependent, and lazy
They never learn, honestly, it amaze me
