

Checkmate

Hi-Rez

Thank you
For everything you never said to me
Everything that I would think
Sink deep on the brink lose sleep
But I'd dream of that piece
That'd I'd put to your teeth
Please
You pleaded
I pulled it
Watch you bleed on these streets
That raised me
Brains on the pavement
Sprayed in repayment
Fuck you hip hop
You made me
Lost generation
Lost in the costs
And the price for the playlist
Little bit o Ritalin fill it in
Feeling ill again so I fill it with
Reelin in delirium
A little more librium will fill my equilibrium
I'm delirious
No I'm serious (Sirius)
Black are my thoughts and these scars bring pain
These Dark Lords of Big Pharma 'Must Not Be Named'
Ring 'a ring a' ring em round it's roses
Smile pretty till the thorn exposes
It's all crowns till the crown deposes
And these downs expose
Holes in our soldiers
These souls at war
Regicide the culture
Rest in peace young Kings:
Mac n Juice
999 was the devil flipped round
But did God look down

I been thinkin'... I think too much
I been thinkin... I think too much
But is it enough?
These devils in my ear and I fear I been touched
I fear what I've done
But I set plays
These (K) night's when I'm bored (board)
Raise the PIECE
And I test fate
Checkmate!

No trust for a Hollywood
No trust for the government
Hip-hop was in love with it
These celebrities, and these actors, and these ball players
They on some sucker shit
I don't trust these labels, I don't these sues
They all be summoning
The devil and my rebel with the cause

Ain't nobody stoping it
Shout out to the homie Knox Hill
I don't really trust in Fort Knox
They tell us that the dollar backed by gold
The sheep are so brainwashed
I'm a lion in the herd
Never lying that's my word
Mother's are crying, children are dying
We blaming each other that's absurd
They got chemicals in what you eat
Our taxes never fix the streets
The finally taxing on the marijuana, people doing life in some weed, damn
Justice system ain't just
Listen to the cancel... That's a must
There ain't no one we can trust
Except God is the only one
The politicians always lobbying, for policies
That are obviously benefiting all the stock holders screaming global warming
, and economy
Diseases make more than a cure
Sugar leaking out their pores
They watch you die sol and poor
Third eye open since I was born
Rez!

I been thinkin'... I think too much
I been thinkin... I think too much
But is it enough?
These devils in my ear and I fear I been touched
I fear what I've done
But I set plays
These (K) night's when I'm bored (board)
Raise the PIECE
And I test fate
Checkmate!

(Checkmate)

A nation addicted to painkillers
Plantations enlisted with pain dealers
See the game played with new slave dealers
Enraged at they ways so I paint pictures
But they got me addicted to paint thinner
Ugh
Settle down settle down
Devil's round
Let em frown
Then set 'em up with self help
And sedatives
Till you settled in the gournd
They selling' you downs while they setting new high's
While these officials get paid on the sly
Write all the laws that are made from these bribes
Devil's actors activate in white coats
Set up tactics vaccinatin' our throats
Pushin' Narcos, Pablos
Dosin' Oxyco until we choke but we're too doped
To even know or feel it so we hold our nose
They hold our dough and we go dive into the lows like...
Whoah
Purdue Pharma, Insysys
They twist descriptions pay the doctors
To list prescriptions

Create this opera
While the FDA orchestrates it all
We're really just pawns
... Checkmate

I been thinking
I think too much
