

# Disappear

Hi-Rez

We were there for each other when nobody else would be  
Or could be but should be, family misunderstood me  
You had me, I had you, ain't even have to ask you  
Even did my schoolwork for me when it was past-due  
Sneakin' out the window, smokin' in the car  
Usin' our fake IDs at the bar  
Starin' at the stars, the future felt far  
The struggles we were goin' through just felt so hard

'Cause we were young, dumb, and broke  
Cup full of liquor and our lungs full of smoke  
Lost in this world with ain't nowhere to go  
Never thought that we would be grown  
I used to wonder if I ever crossed your mind  
When I'm with you, everything just feels so fine  
If this is real, let's disappear  
Just young kids skippin' school  
Smokin' weed in the backyard, chillin' by the pool  
Always tried to play it cool, we was drinkin' with our fake IDs like fuck the rules  
Pull up out front and I will honk twice  
Small city, big dreams, this gon' be a long night  
Damn, tell me where did time go?  
Parties gettin' shut down, runnin' from the five-o

My best friend and my homie always been there when I'm lonely  
Whole new world is what you showed me  
Help me spot the fakes and phonies  
I was livin' life in a mess  
When I met you, now I'm blessed  
Had a lot up on my chest  
Now I feel like I can rest  
I thank God every day we met  
I'm forever in your debt  
Anything you need, I got you, you don't gotta break a sweat  
Make me feel like we still kids  
You remind me how to live  
And sometimes I can't believe all the crazy shit we did

'Cause we were young, dumb, and broke  
Cup full of liquor and our lungs full of smoke  
Lost in this world with ain't nowhere to go  
Never thought that we would be grown  
I used to wonder if I ever crossed your mind  
When I'm with you, everything just feels so fine  
If this is real, let's disappear  
Just young kids skippin' school  
Smokin' weed in the backyard, chillin' by the pool  
Always tried to play it cool, we was drinkin' with our fake IDs like fuck the rules  
Pull up out front and I will honk twice  
Small city, big dreams, this gon' be a long night  
Damn, tell me where did time go?  
Parties gettin' shut down, runnin' from the five-o

'Cause we were young, dumb, and broke  
Cup full of liquor and our lungs full of smoke

Lost in this world with ain't nowhere to go  
Never thought that we would be grown
