

Riding with the top down  
Dreams never get shot down  
Time got a little bit but the money get a lot now  
I was just a drop out  
Always Sunny like that Philly  
I just sold out my Philly  
Riding with SNNY for really though  
I'm about to go illy mode  
Life good matter fact life great  
You do you though homie why hate  
Feel 10 ft tall but I'm 5'8  
3 foot tall homie that was my break  
Bout to hit a homer when I'm stepping to plate  
Better get back boy pointing like Babe  
Used to be broke now the boy got paid  
Used to be broke now the boy got paid

I'll be bringing high vibes when ever your low  
Turning all the rain clouds into rainbows  
No matter what the world brings we gonna glow  
GLOW  
I can see your heart beat and baby it shines  
Even when the sun goes down it's still bright  
No matter what the world brings you and I  
We ll glow  
We will glow

Glow glow glow

Say hello to the peace sign  
Young boy in the PHX go hard for the east side  
All my Monalisa, I'm a go when I rose I rove in a Nissan  
And I had to be patient  
In a world this wild y'all really be basic  
Any challenge I face it  
Any clown talking down on my sound I'm race it  
Stay real cause I feel like bliss  
What's love like it feels like this  
It feels like pain, a little light rain  
Then it's always Sunny and light hits  
Real life hits me, hustle don't stop  
I feel like Nipsey  
Cold Cold War so I feel Grizzly  
Alien boy when they ask who is he

I'll be bringing high vibes when ever your low  
Turning all the rain clouds into rainbows  
No matter what the world brings we gonna glow  
GLOW  
I can see your heart beat and baby it shines  
Even when the sun goes down it's still bright  
No matter what the world brings you and I  
We ll glow  
We will glow
