

## Savior

Hi-Rez

I ain't your savior  
Hoes I don't chase em, don't do me no favors  
I'll see you later  
Been hustling for so long, can't worry 'bout no one  
This world is a cold one, wait til I blow up  
Cause I ain't your savior

All of these people that told me that I wouldn't make it, now they're the ones saying congrats  
Everything in my pocket I earned on my own with no help from nobody that's for acts  
Momma and Poppa told me I could be anything, and I swear I took that shit to heart  
Now for a second did I ever question that I'm gonna chase this dream right from the start

I've been all around the globe  
I've doing hella shows  
I've been getting hella dough  
I've been giving heart and soul  
Losing my breath  
Not losing a step  
Doing this shit til the day of my death  
Losing the stress  
Clearing my mind  
Searching for God I've been needing this time

I ain't your savior  
Hoes I don't chase em, don't do me no favors  
I'll see you later  
Been hustling for so long, can't worry 'bout no one  
This world is a cold one, wait til I blow up  
Cause I ain't your savior

I've been all around the globe  
You ain't seen the things that I've seen  
I don't know what you been told  
You don't know one thing about me

Hust hustling harder than everybody don't do me no favors (don't, don't do me no favors)  
Run run run run runnin this shit like I'm an olympian chasing right after the paper  
Way too focused on the money and happiness in my life to be worried 'bout the haters  
Livin' my life with no regrets, tempted by all of the drugs and the sex  
Sometimes I'll stress  
Then I'll just laugh  
Pedal to the medal Imma push on that gas  
Gettin that cash, they want my soul  
Imma die happy that's my only goal  
Sippin that syrup I'm moving so slow  
I ain't gonna save you cause you just a hoe

I ain't your savior  
Hoes I don't chase em, don't do me no favors  
I'll see you later

Been hustling for so long, can't worry 'bout no one  
This world is a cold one, wait til I blow up  
Cause I ain't your savior
