

All these kids tryna be popular
People don't forget that
Nice guy sent a text to a girl
She ain't text back
Douchebags sent a text
You respond, but gon regret that
Cause he just asked for that pussy
But you ain't even gon sweat that, right?
Cause you just want a story to tell
Caring about yourself image, as the more you develop
What's in and what's out?
Gettin thrown off the shelf
Straving yourself to look pretty and not caring bout health
But look
I'm here to tell you what you doin ain't right
Going to get your parents so we're sneaking out in the night
Your mama tell you do bright
But you don't pay her respect
Your friends mature by time, you wasn't patient like them
You busy chasing a man sneaking off in the clubs
Poppin ex, poppin ex, fake ID for the clubs
Typical daddy problems but he still pay for them Ugs and gives her money but
she spend it on drugs
Now all I got is my memories

All I got is my memories
All I got is my memories
In my heart (in my heart)
In my mind (in my mind)
There's a picture undefined

All I got is my memories

She soaks inside the pain of the punches
Her boyfriend beats her daily but she don't say nothing
She swears she really love him, she puts no one above him
He says he loves her too but he fool I know he doesnt
That mofucka bluffin
You know he won't admit it
And everytime you text him he responds with, "who is this"
He never saved your number
To him you're just some digits
But everytime he visits you girl you let him hit it
Shit when you gon quit it?
Baby get some self-respect
You bought a ticket for a round trip to hell and back
And you drinking til you blackout
Like facing Manny Pacquiao
Your parents show you love so why you'd still get bad mouth
To his hands you was in such a hurry to blow
He took your heart like surgery do hey, hey
He took your heart like surgery do
Fuck popularity cause nerdy is cool

Look inside
Try to figure out who you are
Don't lose yourself
Don't lose yourself in the moment
All I got is memories
Hold forever close to me (keep em close, keep em close)
But I'm gonna move on (everybody move on, move on)

All I got is my memories
All I got is my memories
In my heart (in my heart)
In my mind (in my mind)
