

Big Ol' Clock

Hi-Standard

I've got a hole in my heart
Feel so lonely
Someone sing for me in harmony
I saw the big ol clock
It stopped working when the town fell asleep,
we are far away from home
Just tell me when will I see you again
I'll stand on my feet and walk to you
Won't be afraid of sorrow and pain
I'll spend my life writing my song
For you
For two
Give me time
One more time
Am I not good enough
Am I not tough enough
to sing the song in harmony?
If you've got the power
to change the world
Take me home, you are far away from me

Just tell me when will I see you again
I'll stand on my feet and walk to you
Won't be afraid of sorrow and pain
In my life I got nothing to lose
I forgot to sing in harmony...
Where are the people back home I used to love?

I'll spend my life writing my song
For who
For two
Give me time

One more time

I've got a hole in my heart
Feel so lonely
Someone sing for me in harmony
I saw the big ol clock
It stopped working when the town fell asleep,
we are far away from home
Just tell me when will I see you again
I'll stand on my feet and walk to you
Won't be afraid of sorrow and pain
In my life I got nothing to lose
I forgot to sing in harmony...
Where are the people back home I used to love?
I'll spend my life writing my song
For who

I love

Give me time
One more time

One for
Tomorrow

Give me time
One more time
I see the big ol clock
It says time to leave
It's the time when my town had to fall asleep
