

# Endless Trip

Hi-Standard

Like beeing in a strange dream  
Somehow we're in the wrong van  
Pop music on the radio  
The guys are sleeping like dogs

A cool guy with tattoos driving  
He has a thick pierce in his tongue  
No reason so we just keep moving,  
Making music everyday

Yeah, gonna make it work  
And find the power inside us  
Yeah, gonna make it work  
Nobody can control us  
We'll be changed by this endless trip

Surely we are moving forward  
What's waiting there for us?  
300 miles, another town  
Tell me all about your dreams

This endless trip is a sweet dream  
I believe this make me strong  
No reason so we travel on  
Each new day a mystery

Yeah, gonna make it work  
And find the power inside us  
Yeah, gonna make it work  
Nobody can control us  
We'll be changed by this endless trip

I feel freedom, I feel spirits  
I feel my future  
When I reach the end of this road  
I will find a new world there. Yeah!

Yeah, gonna make it work  
And find the power inside us  
Yeah, gonna make it work  
Nobody can control us  
We'll be changed by this endless trip
