

Get Sun

Hiatus Kaiyote

Surface will it suffice
The clay grows dry
But you keep your borders guarded
And the heights of which you own
Feed me rhinestones
Bowling into the void

A way to get sun when your heart's not open
A way to get sun when your heart's not open

Ghost
Hidden eggshell
No rebel yell
Comfort in vacant waters
And I awake
Purging of fear
A task that you wear
Dormant valiance it falls

A way to get sun when your heart's not open
A way to get sun when your heart's not open
A way to get sun when your heart's not open
A way to get sun when your heart's not open

I wanna like what you do
I wanna like what you do, what you do
I wanna like what you do
I wanna like what you do, what you do
I wanna like what you do
I wanna like what you do, what you do
I wanna like what you do
I wanna like what you do, what you do

A way to get sun when your heart's not open
A way to get sun when your heart's not open
