

# Beyond Regrets Of The Past

Hibria

(I'm) Losing control  
(I'm) Screaming in silence  
Blows me away, this scary madness  
My dying soul has no more hope  
Just sadness will lead my way

When you face all the pain that enslaves you  
Bending your knees you will pray  
When you break all the chains that make you  
A slave to the darkness

Beyond regrets of the past  
Sleepless fears not left behind  
(A) Way out - I'll try all my best  
But I just can not get rid of my mind

Rage and hate I feel when I look at the scratches on my soul

Burn up the past  
We always have to move on our future  
No matter if we're lost  
(The) growing fear will make us strong to survive  
And keep on realizing

We just have on life to cure  
The shadows we keep confined  
Don't surrender the fight, struggling inside  
Blaming the world won't make you heal

When I feel I'm not strong  
Damn darkness I know will hold me again  
I'll force my mind - to face my regrets  
That keep me in the past

Beyond regrets of the past
