

# Heaven

Hibria

Every night  
Dreaming is a paradise I wanna fight for

Have you lost a soldier?  
But don't lose your faith  
I've refused to live in beggary  
Found myself in places that I used to dream  
Work and trust are the eyes of my nature

I won't give up!  
Can you imagine a life without a dream?  
The birth of a son  
The price of a path  
Bring us closer to heaven

Every night  
Dreaming is a paradise I wanna fight for  
I am a dreamer holding my breath

Heaven - Mine has never gone out  
I began to learn that dreaming  
Fills my heart up

Have you lost a battle?  
But don't lose your faith  
I've refused to live in beggary  
Found myself in places that I used to dream  
Work and trust are the eyes of my nature

I won't give up!  
Can you imagine a life without a dream?  
The birth of a son  
The price of a path  
Bring us closer to heaven

Every night  
Dreaming is a paradise I wanna fight for  
I am a dreamer holding my breath

Heaven - Mine has never gone out  
I began to learn that  
Dreaming fills my heart up

A great grief - Yes I, I feel it now and  
My voice still sounds like my fears  
I need relief and I know  
My pain is cracking my life  
My pain is just mine  
No more grief and I'll release my fears  
Yes, I know some doubts can doom our lives  
So listen to me I could show you  
How to face your fears  
I'll tell you why

We all make big mistakes in our goals  
I've been holding my breath  
I've got a dream - No turning back

I'm gonna hold the stars above us  
I feel so free I'm gonna follow my way
